YOUTH DEVELOPMENT

At the YMCA, we're committed to ensuring every child has an opportunity to pursue their best future through programs that inspire them to reach their full potential socially, academically, emotionally, and physically.

Our Y offers Childcare services (Before & Afterschool/ Summer Camp) and Youth programs at 15 locations throughout our service areas in Atlantic, Cape May and Cumberland County. Each year, we offer financial assistance through our Annual Giving Campaign to those who need support for these crucial services.

HEALTHY LIVING

The YMCA knows that by identifying and removing barriers, we can offer spaces, facilities, and programs that are open and accessible in order to create opportunities for healthy living.

Through the generosity of our donors, we are able to offer crucial community programs like the Y's Diabetes Prevention program, LIVESTRONG® at the YMCA, our cancer survivorship program, and many programs specifically for our Active Older Adults.

SOCIAL RESPONSIBILITY

The YMCA responds to society's most pressing needs by developing innovative, community-based solutions like free community events offering access to local resources, our Bless It Forward holiday donation drive, assisting hundreds of individuals during the holiday season and food assistance to those in need.

Last year, our Bless It Forward initiative supported 73 families totaling 107 adults and over 220 youth with gifts, food, household items and clothing.

» YOUR IMPACT

Y CARES FINANCIAL ASSISTANCE

Our way to provide support to those who cannot otherwise afford a membership, or those that are in need of financial support for programs within our Y, such as summer camp, youth sports, day camp, and personal training.

“The Y is the best space in the city for my children, to really help support their growth. They need the exercise for their body and mind, and this will help them better service society. They will also build healthy habits, we are honored to be a part of this beautiful place.”

CHRONIC DISEASE PROGRAMS

Cumberland County is ranked the unhealthiest County in NJ, with a higher risk of poor health, including things such as diabetes, than the rest of NJ and across the Country. Our programs such as the Diabetes Prevention program

and the Blood Pressure Self-Monitoring program help individuals focus on managing their health themselves, with the Y's support. These programs are offered at NO cost to the individual, thanks to donations such as yours.

Y SIGNATURE PROGRAMS

We strive to offer impactful programs, for all ages and abilities. Thanks to our donors, the Annual Giving Campaign subsidizes many of our signature programs, such as swim lessons, the Safety Around Water drowning prevention program, water exercise, and our free community events.
